

Ahmed Salah Ahmed

Full stack Developer

Saa774043@gmail.com | [LinkedIn](#) | [GitHub](#) | +201124828826

PROFILE SUMMARY

Third-year Computer Science and Artificial Intelligence student at Helwan University. Dedicated Full Stack Developer with a solid foundation in building responsive web applications using modern technologies like React and Spring Boot. Proficient in the full software development lifecycle, from designing intuitive user interfaces to implementing robust backend logic and managing databases

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, C.

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js. **Backend**

Development: Java (Spring Boot), .NET (Learning), RESTful APIs Tools &

Databases: SQL, Git, GitHub

PROJECTS

E-commerce Platform | [GitHub](#)

- Developed a comprehensive online marketplace with a dynamic frontend using React and a secure backend architecture.
- Implemented essential features such as user authentication, product catalog management, and a real-time shopping cart.
- Focused on creating a seamless user experience (UX) and optimized the database for efficient product searching and filtering.

Bug Tracker System | [GitHub](#)

- Built a professional tool for development teams to log, track, and manage software defects and tasks.
- Designed a dashboard with features for setting priority levels, assigning tasks to team members, and tracking issue status.
- Managed data relationships using SQL to ensure data integrity and efficient reporting of project progress.

Book Shop Application | [GitHub](#)

- Created a digital bookstore web application focusing on clean UI and intuitive navigation.
- Integrated search functionality with categories and filtering options to enhance the browsing experience.
- Utilized HTML5, CSS3, and React to ensure the application is fully responsive across different devices.

Landing Pages Portfolio | [GitHub](#) | [GitHub](#)

- Designed and deployed high-performance, mobile-first landing pages for various business use cases.
- Applied modern design principles and CSS animations to improve user engagement and conversion rates.
- Ensured cross-browser compatibility and optimized page load speeds for better SEO performance.

EDUCATION

Helwan University

- B.Sc. in Computer Science and Artificial Intelligence
- Third-year Student (Expected Graduation: 2027)
